FOREGAST FOR TODAY. Fresh trades, showers, morning and evening.

Buy public land only when its title has been adjudicated.

The Advertiser says "Judge Estee is a hot tamale." That is not just what the Advertiser said of the Judge when he was appointed.

When Thurston gets through abusing the Judges he cannot control he will probably devote himself to raising Kihel-to respectability.

And so the officials of Hawaii want the United States to pay rent for property which already belongs to the Federal government. What next?

McClanahan, McClanahan, Rolls off the tongue easily don't it? As easily as though one were speaking the name of a Chicago police court pettifogger.

The Daily Thurston is getting ready to attack the United States District Court. L. A., on "the dead side," let us whisper to you that all the work will not do.

A good, virile administration of justice is what has been badly needed in Hawaii for a long time. With men like the present judges on the beach it seems certain such an administration will be had.

Papa Alatau feels hurt because the grand jury seems likely to ask his sontions. It's just awful, this interference with the benificent workings of the family compact.

The days of favoritism in the courts are past and it makes those who were the beneficiaries of favoritism very indignant. The same condition of affairs will prevail ere long in the Territorial government. Favoritism will be a thing of the past,

Mr. Harold M. Sewall has a number of office equipments in his custody belonging to the United States which were formerly in the legation here. All these equipments were tendered to Judge Estee vesterday by Mr. Sewall for the use of the United States cour! and its officers

The slow-going morning contemporary feels bad because of the manner in which it is being scooped in the local news field every day by The Republi-The "leaks" dearly beloved come about by hustling a following out of the promise to give the people of Honolulu a live, hustling, daily newspaper.

Yes indeed the eyes of the President and all the United States are on Hawaii and the sooner the officials of the new territory recognize that fact and the further fact that they are making themselves ridiculous to Americans by their actions the better it will be for Hawaii. An honest enforcement of the law may seem severe for those who have been the petted favorites of the court in the past but it is just what the Department of Justice at Washington wants and will most heartily en-

Why certainly, a judge who would dare to charge a grand jury to investi- a revolting, nauseous insult to the very gate open and notorious charges against any public officer who belongs to the family compact is not calculated to increase respect for the bench-that is, from those who feel the halter draw. But just the same the people, the backbone of the community, endorse fully the actions of the Judge of the First Circuit, and thank God that at last there is one public official who does not take orders from the members of the same thing. I see it in his eye right the old oligarchy.

On another page of today's Republican appears in full the decision of General Appraiser Somerville of the treasury department on the status of imports from Hawaii into the United States during the interregnum between the time of the passage of the Newlands resolution and the taking effect of the Organic Act, together with the brief of the government. The Appraiser refused to touch upon the constitutional question involved, saying that only the Supreme Court of the United States could finally and satisfactorially decide that ques-

### DEMOCRACY AND THE NEGRO.

On another page of today's Republican appears a telegraphic report of the State election in North Carolina held on August 1st, in which the constitutional amendment disfranchising 100,000 negro voters was adopted. But there is light on the question, as vide AMFRICAN SHIP the following from the New York Mail and Express of July 20th: "The Democratic campaign in North

And this disfranchisement of the Negro in North Carolina is the sort of treatment the Democratic party would bestow upon the natives of Hawaii if it had the fower.

### Tillman and Liberty

From the New York Mail and Express Just why Senator Tillman of South sas City platform to the convention ably never be generally known. He is ertainly not more richly gifted than are his party brethren with charms of art of the orator. Possibly he was put IN THE DISTRICT COURT OF THE person and manner or with the subtle forward as an exponent of the particular species of liberty which the Democratic party is anxious to extend to the dark skinned races whose political destinies have recently passed under American control. If that is the explanation the fitness of the selection is undeniable. The first sentence of the Greeting: platform which Mr. Tillman read with

such fine theatrical effect is as follows: "We, the representatives of the Democratic party of the United States, assembled in convention on the anniversary of the adoption of the Declaration of Independence, do reaffirm our faith in that immortal proclamation, of the inalienable rights of man, and our allegiance to the constitution, framed in harmony therewith by the fathers of

the republic. nothing could be finer than that. It sounds like the utterance of high minded patriots who believe in giving force and effect to the principle that all men are created equal. But when considered premises, and all proceedings being in the light of Mr. Tillman's own record and the record of the State which he represents in the Senate it becomes spirit of free institutions. It was only last winter that Senator Tillman, when | Libelants. taunted by Mr. Spooner with the dis-graceful suppression of negro suffrage in South Carolina, brazenly admitted the charge, declared that he was proud of it, and upheld the infamy in these

got tired ourselves." This unblushing confession of crime against the ballot has never been de nied by the State which Mr. Tillmon represents; it has never been con-demned by the party to which he belongs, nor has it provoked a word of censure from the candidate whom he helped to nominate at Kansas City. The silent acquiescence of the Demoeratic party in the infamous destruction of civil liberty and a free ballot in South Carolina made it particularly appropriate that Mr. Tillman should b chosen to submit the Bryan platform to the Bryan convention. But to be consistent the resolution should have been written in the blood of the negroes whom Tillman and his associates have slain for having dared to exercise a no-
